

Accessibility Statement

Last updated 30 June 2026

Polymorphic Studios Ltd (trading as “Software for Schools”, “we”, “us”) is committed to making our website and products accessible to everyone, including people with disabilities. We want as many people as possible to be able to use what we build, regardless of how they access it.

Our commitment

We aim to follow the **Web Content Accessibility Guidelines (WCAG) 2.2 Level AA** and consider accessibility throughout the design and development of our website and products. These guidelines explain how to make web content more accessible for people with a wide range of needs, including those who use screen readers, navigate by keyboard, or rely on assistive technology.

Our accessibility approach

We design and build with accessibility in mind. Among other things, we aim to:

- Use clear, plain language and a logical reading order
- Maintain sufficient colour contrast between text and backgrounds
- Support full keyboard navigation, with visible focus indicators
- Provide text alternatives for meaningful images and icons
- Use semantic, well-structured headings and landmarks so assistive technology can interpret pages correctly
- Ensure our website and products work across modern browsers and adapt to different screen sizes

Accessibility in our products

Accessibility is part of how we build our products, not just our website. Because our products are used by school staff to support the children they teach, we work to ensure they are usable by staff with a range of needs, and we continue to improve accessibility as we develop new features.

Known limitations

Despite our best efforts, some parts of our website or products may not yet be fully accessible. We treat accessibility as an ongoing process and work to identify and fix issues as we find them. If you come across a barrier that prevents you from using something, please let us know — it helps us improve.

Feedback and contact

We welcome your feedback on the accessibility of our website and products. If you experience any difficulty, or need information in a different format, please contact us:

Polymorphic Studios Ltd alex@softwareforschools.uk

If you require information in an alternative format, please contact us and we will endeavour to provide it where reasonably practicable.

We aim to respond to accessibility enquiries within 10 working days.

Changes to this statement

We may update this statement from time to time as we make improvements or as standards change. We review this statement periodically and update it as our website and products evolve. The “last updated” date above shows when it was last revised.
